Correction to: J GEN INTERN MED https://doi.org/10.1007/s11606-022-07685-0

Correction: We submit a revision of Table 1, as the version in the original publication violated the *All of Us* data access and use policies. Specifically, the policies state that cell counts <20 may not be shared. Although we did not display cell counts <20 in our original publication, some values <20 could be secondarily calculated based on other available information, and we inadvertently overlooked this component of the policy. Table 1 is now revised to obscure these data such that these values cannot be calculated. We apologize for our non-compliance with the policies and for any breach of trust this may have caused with *All of Us* participants. No *All of Us* participants were re-identified during the process of conducting the study; all data remained de-identified. We thank the *All of Us* program and its participants for making this research study possible and again apologize for this unintentional oversight.

The original article can be found online at https://doi.org/10.1007/s11606-022-07685-0.

Table 1 Distribution of Selected Characteristics for Glaucoma Patients Who Report Difficulty Affording Medications in the NIH *All of Us* Research Program by Race/Ethnicity

Characteristics	NH White	NH African American	NH Asian	Hispanic (any race)
Total, no. (%)	6732 (68.3)	1501 (15.2)	232 (2.4)	1395 (14.1)
Median age (IQR)	54 (40–66)	51 (40–60)	40 (31–55)	44 (33–56)
Age category, no. (%)[a]				
<40	1588 (23.6)	371 (24.7)	108 (46.6)	559 (40.1)
40–64	3273 (48.6)	907 (60.4)	95 (40.9)	689 (49.4)
≥65	1871 (27.8)	223 (14.9)	29 (12.5)	147 (10.5)
Gender, no. (%)				
Female	4900 (72.8)	1175 (78.3)	134 (57.8)	1032 (74.0)
Male	1638 (24.3)	313 (20.9)	88 (37.9)	312 (22.4)
Income, no. (%)				
0–25 k	1886 (28.0)	802 (53.4)	58 (25.0)	578 (41.4)
25 k–50 k	1842 (27.4)	393 (26.2)	42 (18.1)	420 (30.1)
50 k–100 k	1795 (26.7)	233 (15.5)	58 (25.0)	284 (20.4)
>100 k	1209 (18.0)	73 (4.9)	74 (31.9)	113 (8.1)
Health insurance, no. (%)				
Medicaid/none	1372 (20.4)	567 (37.7)	40 (17.2)	500 (35.8)
Other insured	5360 (79.6)	934 (62.2)	192 (82.8)	895 (64.2)
Education, no. (%)				
No HS diploma	138 (2.0)	97 (6.5)	<20	144 (10.3)
HS diploma/GED	806 (12.0)	305 (20.3)	<20	239 (17.1)
Some college	2412 (35.8)	626 (41.7)	35 (15.1)	525 (37.6)
College and above	3376 (50.1)	473 (31.5)	186 (80.2)	487 (34.9)
Asked for lower-cost medication, no. (%)				
Yes	4017 (59.7)	732 (48.8)	122 (52.6)	674 (48.3)
No	2715 (40.3)	769 (51.2)	110 (47.4)	721 (51.7)

Counts less than 20 (and corresponding percentages) cannot be displayed due to NIH All of Us Research Program Data and Statistics Dissemination Policy. In some cases, additional data may be obscured to prevent secondary calculation of these values

[a]Original age categories included 65–74, 75–84, and 85+, but these categories were collapsed together to avoid secondary calculation of cells <20
